THE TEA TRADE. - Owing to the near approach of the 1st of January, when there is to be a reduction of the import duty of 10 per cent. on tea, business is rather quiet with a prospect of more activity after the new year opens. The stock on hand out of bond is very light in this city, and throughout the country generally much lighter than for many years past. The importation of teas by the way of San Francisco and the Pacific railroad has had some effect upon the wholesale market here, but not so much as was prophesied before the completion of the road. Buyers in the West are still obliged to come to the Atlantic States for the larger portion of their goods, and as tea is very "heavy" to carry in any quantity, they prefer to have our merchants buy largely instead of doing so themselves, as they can order in small lots as needed and have the use of their money, for other purposes. For this reason the tea business between New York and the West is nearly as large as two years ago. --Many jobbers are buying tea in bond and anticipating the change in the tariff. The foreign market has changed somewhat in view of this modification, and teas have advanced slightly in China and Japan, so that the new importations will come in under an advanced price. The Tea trade of the whole country, fis rapidly increasing, and many of our jobbers report this season a very large increase on the business of last year. New York and Boston are the principal depots for the importation of tens, although San Francisco is doing a large and increasing trade in this line. -N. Y.
